Furkan Tunalı Résumé

Summary

I've been developing, designing and being passionate about web since the late nineties through a dial-up connection.

Recently focused on architecting cloud platforms and web, whether it's the back-end, dev-ops, platform development, front-end, mentoring, consulting or handling communication.

Experiences

 Senior Software Architect at <u>Société Générale Digital Factory</u>, <u>Berlin</u>

09/2019 - 05/2020

Some of my tasks were:

- Building the technical vision
- Driving the adoption of the technical concept
- Trying to create a good DX (developer experience)
- Linking and ensuring compatibility of in-house services with parent company related services through communication and research
- Being sure of delivering stable and secure products on time
- Researching and building cloud integrations and maintaining engineered artefacts
- Contributing to building initial full-stack boilerplates of MVP
- Migrations of existing data structures into upcoming services
- Integrating fully automated continuous delivery, deployment and development
- Implementing testing strategies
- Participating in planning and hiring of a new development team from scratch
- Pair programming
- Mentoring or onboarding new members of the team
- Code reviews and gradually implementing linting strategies for code quality and consistency
- Automating semantic code versioning and conventions
- Working on containerisation and deployment strategies
- Researching and applying data storage

Some of the technology and services that I used so far:

- Microsoft Azure, Github Actions, Node, Vue.js, TypeScript, Docker, WebPack, GraphQL, Apollo, Express, Cosmos DB, PostgreSQL, Azure Active Directory, Azure Functions, OpenID Authentication, Jest, Web Components, Stencil.js
- Senior Back-end Architect at GameBook AG (Formerly Experimental Game GmBH), Berlin

09/2018 - 02/2019

Some of my tasks were:

- o Implementing and refactoring back-end services.
- Developing features as full-stack.
- Profiling performance bottlenecks.
- Working with containerization and development cycle.
- o Improvement of dev-tools.
- Migrations of existing data structure.

Some of the technology and services that I used so far:

- Node, AWS, TeamCity, Docker, WebPack, GraphQL, Ramda, React, Redux, AWS, Express, MongoDB, Atlassian tools, Github, JSS, Sass
- Lead JavaScript/Front-End Developer at Groupe Chantelle,
 Digital Lab, Berlin

08/2017 - 12/2018

Some of my tasks were:

- Managing and being responsible for the actions of Front-end team.
- HR, interview, boarding and hiring process

- Modernizing front-end architecture without losing existing functionalities and values.
- Making sure codebase is improved and streamlined.
- Implementing code quality-assuring tools and automated of tests.
- o Implement dev-ops tools and a new eco-system to act develop faster.
- Helping with the conversion from monolith systems into separated microservices when possible.
- Following Agile methods.
- Reviewing codes.
- Migrating from Front-end to being a Full-stack team.
- Mentoring, inspiring, guiding or helping front-end team when possible.
- Helping to achieve being data-driven and implementing A/B testing solutions.
- Making sure the projects will be fitted into sprints and acting if they are not going as planned.
- Tracking the development of UI library for connecting the UX team and Front-end team components as a bridge.

Some of the technology and services that I used so far:

- Node, Magento, WebPack, React, GraphQL, Redux, FlowType, AWS,
 Koa, MongoDB, Babel, Functional Programming, Atlassian tools, Github
- Universal JavaScript Engineer at Pixsy GmbH, Berlin

01/2017 - 08/2017

My responsibilities were:

- Delivering new features on both ends with using JavaScript.
- Delivering code with the unit, integration and E2E covered tests.
- Maintaining or migrating existing features.
- Developing and maintaining micro-services.
- Improving our architecture and stack when it's possible.
- Integrating and maintaining data on Mongo, Stripe and SalesForce.
- Keeping an eye on app health with Heroku and Sentry reports.
- Following KANBAN with some Agile methods.
- Reviewing codes from our team's pull requests.
- Following our code conventions and guidelines.

Some of the technology and services that I used:

- Node, Lambda/Serverless, React, Redux, FlowType, AWS, WebPack, Webpack Isomorphic Tools, Koa, MongoDB, Babel, HighlandJS, SalesForce API, Mixpanel, Mocha, Chai, Yadda, Webdriver.io on top of Selenium, Stripe API, Sentry, Github
- Software Architect and JavaScript Developer at <u>Talented</u>
 <u>Square, CA</u>

08/2015 - 08/2016

Some of the projects:

 Front-end development for a giant multinational retail corporation's online wholesale seller portal which cannot disclose it's name but feel free to contact for the details.

Some of the project skills: JavaScript, Angular, AMD, Gulp, CSS, SCSS, HTML and a small amount of Maven and Jetty.

 Performance and architectural improvements and JavaScript development to an e-commerce website to the same company described above.

Some of the project skills: Browser and mobile optimisation, JavaScript, Backbone, AMD, CSS, jQuery, HTML and Ant.

 Architectural design and javascript development for a new recruiting startup project.

Some of the project skills: architectural decisions, JavaScript, LoopBack, Webpack, Gulp, MySql, React, Redux, HTML, SCSS.

Founder, full-stack web developer and designer at NOD studios,
 Istanbul

11/2012 - 07/2015

Some of the projects:

Web development and design for <u>Gym & Tonic</u>

Some of the project skills: Design, JavaScript, PHP, HTML, LESS, CSS, CanJS, Mustache.

Web development for <u>Silent + Blessed</u>

Some of the project skills: Design, JavaScript, HTML, LESS, CSS, CanJS, Mustache.

Web development and design for <u>Mirjam Schmitt</u>

Some of the project skills: Design, JavaScript, HTML, LESS, CSS, CanJS, Mustache, WordPress, WordPress JSON API.

Web development and design and UX consultancy for <u>Les Benjamins</u>

Some of the project skills: Wireframing, Mockup, Design, JavaScript, HTML, LESS, CSS, CanJS, Mustache, CakePHP.

 Web development, design, mobile app design, UX design and refactoring legacy code for <u>etiqadd</u> Some of the project skills: Wireframing, Design, JavaScript, AMD, PHP, Codelgniter

Social web app design and gamification for <u>Gripati</u>

Some of the project skills: Wireframing, Design, JavaScript, AMD, PHP, Codelgniter

Front-end mobile web development for <u>LigTV</u>

Some of the project skills: Mobile optimisation, HTML, CSS, JavaScript

Internal website design and full-stack web development for <u>Ülker</u>

Some of the project skills: PHP, CakePHP, HTML, CSS, JavaScript

Server-side web RSS aggregator API development for a mobile app of <u>MB</u>
 <u>Apps</u>

Some of the project skills: CakePHP, PHP

Full-stack web development for <u>Umut Üzümleri</u> movie

Some of the project skills: Design, HTML, CSS, JavaScript

- Open source projects and libraries at Github
- Full-stack web developer at <u>FOX International Channels</u>, <u>Istanbul</u>

01/2012 - 12/2012

Development of some social app and microsite web development for some clients including:

<u>Samsung Turkey, National Geographic Turkey, Nokia Turkey, True Blood TV show, Glee TV Show, TerraNova TV show</u>

• Front-end developer and designer at projectz, Istanbul

06/2011 - 12/2011

Front-end coding, refactoring and web design for startup project <u>yardimlazim.com</u>

• Full-stack developer at Manajans / JWT, Istanbul

05/2009 - 06/2011

Development of websites, CMS development, online communities, social apps and microsites for some clients including:

Miller, GncTurkcell / Turkcell, Eston, First, Bomonti, Efes, TeraBrokers (Formerly TeraMenkul)

 Front-end developer at <u>Tribal DDB Worldwide Istanbul(formerly</u> <u>Manadigital)</u>

03/2009 - 05/2009

Front-end development for some clients including:

patlican / avea, TTNET

• Full-stack developer at Ping Digital Agency Istanbul(formerly OnKaplan)

05/2008 - 03/2009

Garanti, TTNET

 Designer, front-end and Flash developer at Koçak Dizayn, Istanbul

05/2008 - 03/2009

Design, concept art creation, front-end development and illustration for an online art community startup.

Designer and front-end developer at MedyaNova, Istanbul

05/2005 - 02/2007

Design and front-end web development for various web projects mostly regarding travelling, hotel and hotel franchise clients like <u>Best Western</u> <u>Hotels</u>.

Internship at MedyaNova, Istanbul

04/2005 - 05/2005

Skills

- Programming & Development
 - Software & Markup Languages
 - JavaScript / ECMAScript,
 EcmaScript 2016 / ES6,
 EcmaScript 2017 / ES7 advanced
 - Node.js advanced
 - PHP advanced
 - HTML / HTML5 / xHTML advanced
 - CSS / CSS3, less, SASS / SCSS advanced
 - Python beginner
 - Ruby beginner
 - <u>SQL</u> advanced
 - Familiar patterns / conventions: FP, Isomorphic / Universal Javascript, TDD, BDD, MVC, MVVM, OOP, Prototypal OOP, OLOO, AOP, ES6 Modules, AMD, CommonJS, Semantic Versioning
 - Other: Bash, ASP, .NET, C, C++, PIC
 - Tools

Some of the frameworks

- RxJS (beginner)
- Serverless for Lambda (advanced)
- Koa (intermediate)
- React (advanced)
- Redux (advanced)
- Flux (intermediate)
- Angular (advanced)
- Backbone (advanced)
- CanJS (advanced)
- polymer (intermediate)
- Aurelia (beginner)
- express (intermediate)
- LoopBack (advanced)
- CakePHP (advanced)
- lithium (intermediate)
- Codelgniter (intermediate)

Databases

- RethinkDB beginner
- MongoDB advanced
- MySQL advanced
- <u>SQLite</u> advanced

Libraries and Miscellaneous Tools

Flow Type, Atom, npm, Homebrew, Babel, gulp, Jest, Chai Assertion Library, webpack, HighlandJS, WebStorm, Protractor, jQuery, RequireJS, Underscore.js / lodash, git, PM2, WordPress, IBM API Connect, Bower, SystemJS, jspm, composer, pip, gem, Apache HTTP Server, PhoneGap, Appcelerator, fish, Bash

APIs and Services

Heroku, AWS (Amazon Web Services), SalesForce, Stripe, Mixpanel, Facebook, Twitter, Shopify, Flickr, Tumblr, WP REST API, SoundCloud,

Pinterest

Operating Systems

OS X, Ubuntu, Windows (Using it for playing some video games)

Design

- Web Design on the browser
- Ul Design
- Wireframing / Mockup Design
- Responsive Design
- Ul Design
- Web UX
- Branding / Identity
- Print Design

Tools

- Adobe Photoshop advanced
- <u>Sketch</u> beginner
- Adobe Illustrator advanced
- Adobe Fireworks intermediate

Languages

- Turkish native
- English advanced

Education

• Computer Programming and Technology at Kadir Has University

2004 - 2008

Sehremini Anadolu High School

Interests

- DJ and Founder at AmbientData
- Contributing back to an Open source
- Experimenting with side-projects
- Sci-Fi books, movies etc.
- Exploring Typography
- Photo manipulation
- Travelling
- Exploring Craft Beer and Coffee
- Video games
- Any kind of nerd activity
